REPORT OF FULLER PUBLIC LIBRARY

We submit herewith report of the Fuller Public Library for the year ending December 31, 1951.

The many books and magazines given to the Library are greatly appreciated. Through the generosity of Mr. Granger, the nature books of Mr. and Mrs. Charles Livy Whittle, given to the Caroline Fox Bird and Garden club, are to be kept in the Library and are available to others as well as club members. The following persons addressed the Library teas, which were well attended: Mrs. Holden, Rev. Mr. Honeywell, Rev. Mr. Perry, Mrs. McCarthy and Mrs. Plumer.

REPORT of FIRE WARDEN

Only YOU Can PREVENT Forest Fires

New Hampshire faces a real forest fire problem and challenge! To meet it successfully, New Hampshire and your community needs YOUR thoughtful and cooperative effort.

Continuously heavy lumbering operations following the hurricane has produced more than 4 billion board feet of lumber. This lumber helped win World War II, meet post war needs and now the current requirements for the Korean military action. But it has added nearly 900,000 acres of slash to our already sizeable slash problem.

When YOU fail to use needed precautions while burning in or near woodlands -

When YOU fail to secure the required permit from your local forest fire warden before burning -

When YOU are careless in smoking near woodlands -

When YOU throw lighted cigars, cigarettes and matches from vehicles moving along the highway -

YOU are violating fundamental common sense and may easily contribute to a substantial and costly fire. Such conflagrations are possible because of the hundreds of thousands of slash acres throughout the state!

REMEMBER - the fire YOU prevent might be one which could conceivably burn YOUR property and harm YOUR community!

ONLY YOU and YOU and YOU can prevent forest fires!! Will YOU help!

PRINCIPAL'S REPORT

Mr. J. Harold Moody
Superintendent of Schools
Hillsboro, New Hampshire

Dear Mr. Moody:

The present school year is an eventful one for the Town of Hillsboro. With our new addition to the high school, splendid physical facilities are available for teaching our boys and girls. The pupils have been segregated as follows:

	No. PUPILS
Grade 1	25
Grade 2	30
Grade 2-3	17
Grade 3	26
Grade 4	28
Grade 4-5	18
Grade 5	31
Grade 6	28
Grade 7	38
Grade 8	35
Grade 9	38
Grade 10	27
Grade 11	30
Grade 12	30
Total	401

With our new facilities, the Hot Lunch program has become increasingly popular; approximately 220 pupils are served daily. Regularly scheduled classes in physical education are being conducted for all elementary school pupils.

At the high school level, I am pleased to note excellent progress in our vocational courses, home economics, shop and commercial subjects. And our boys and girls, who have done college certification work while in high school, are making substantial records in college.

I wish to thank the faculty of the Hillsboro Public Schools, Superintendent of Schools Moody, Nurse Bailey and the members of the School Board for their cooperation.

Respectfully submitted,

S. J. Bernard, Principal
Hillsboro Public Schools

SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Hillsboro:

I am pleased to submit my first annual report as Superintendent of Schools.

For the first time Hillsboro is educating all its children under one roof. This new organization should provide many advantages as well as economies for both the high and elementary grades.

1. New teachers.

Miss Edna Johnson who has been on a leave of absence for the last two years teaching at Pierce College in Greece has returned to teach English in the high school.

Mrs. Georgiana Gile who formerly taught in Hillsboro has returned to teach the 4th grade.

Miss Lulu Cilley who has been teaching in Bennington has joined our staff as 5th grade teacher.

Mrs. Verna Sawyer, teacher of the 2nd grade comes to us from Weare.

Miss Winnifred Bassett who formerly taught in Alexandria is teaching a combined 4th and 5th grade.

Mrs. Elinor Vaillancourt who taught in Enfield before her marriage has returned to teach a combined 2nd and 3rd grade.

Mrs. Isabel Nichols of Antrim, a graduate of the New England Conservatory of Music, has been secured as music supervisor.

Retirement has claimed two of our veteran teachers. After fifty-five years as a teacher, most of which were in Hillsboro, Miss Estella Shedd retired last June. Miss Susan Pierce also retired after thirty years of teaching, twenty-nine of which were in Hillsboro. A public tribute was paid them at graduation when they received tokens of appreciation from the Parent-Teachers Association and the School Board. Their careers have been noteworthy and their retirement well earned.

Hillsboro is fortunate in view of the present teacher shortage, to have a strong experience faculty all the way from the first grade through the high school.

2. The School Plant.

Most of the advances in modern school design are embodied in the new eight-room elementary school, auditorium-gymnasium, and kitchen which were added to the high school. Large windows, indirect lighting as well as light-reflecting walls and chalk boards do much to cut down eye

strain. The new heating-ventilating system coupled with easily cleaned tile floors should reduce the spread of disease germs in school. Highly fire resistant construction and the fact that all elementary rooms are on the ground floor provides greatly improved safety. Large rooms and movable furniture give the flexibility which allows good teachers to do their best work. Running water in each room and toilets in the younger grades are a great convenience and save much time. The auditorium, equipped with a good stage and fine lighting, should adequately accommodate the public gatherings of Hillsboro for many years. Folding doors divide this space so half may be used by high school gymnasium classes while the rest is used by the elementary school as a cafeteria or recreation room.

3. School Philosophy

The only thing we can always count on is change. So schools, like the rest of life, cannot remain static. They change because the work people have to do changes. They try to meet the needs of the children for the present and for the life they will lead as adults. Some of the following may point to the way it is being done in a few fields. This is not confined to any one grade level, but extends throughout the system.

A. The Three R's.

A nationwide survey among adults shows that six out of ten adults believe children are better taught in reading than they were. America bought over 50 million newspapers every day last year, and think of the weekly papers and magazines that circulate to the millions. The modern reading program has been developed so that children read more books than ever, read faster and with greater understanding.

Writing is stressed in the early years of school. It is one of the essential skills which every person should possess. The big goals are legibility and speed.

Modern instruction in arithmetic conforms to the basic needs and use of this tool. Problem-solving occupies an important place. Faults are corrected by remedial exercises. A teacher can, by tests, determine how well her pupils rate with each other and with similar grades in other schools.

The amount of time spent on these three R's is much greater than it was a hundred years ago. The techniques have improved, and the schools teach them better than ever before.

B. Health

There are many ways in which the schools contribute to the health of the child. Physical examination, including sight and hearing, physical education classes and organized recreation for all grades, furniture that encourages good posture and adequate lighting are all contributions of the modern school to the proper development of the whole child.

C. Music

This is the one subject for everyone. All manners and kinds of people meet on common ground in music. There is perhaps no other experience of the school program that is carried over more completely into adult life than music appreciation and performance. To be sure, there are unmet needs in this field, but generally greater enjoyment, opportunity for display of special talents, and appreciation are end results.

D. Social Studies

These include history, geography, economics, civics and world problems. Their purpose is to create a more effective citizenship. History, we must have to understand the backgrounds. We study the past to learn about the present, the present to predict the future. Geography of towns, states, nations leads to understanding of the relations of people with each other. Economics covers problems of capital and labor, tariff, exchange, banking, price, rent, and hundreds of others closely associated with daily living. Sociology deals with the family, stability of home, population growth, crime, education, sanitation, and many other subjects close to human relationships. Civics is the study of the principles of our government, including federal, state and local.

In closing I would like to express my appreciation for the vigorous cooperation of your school board. (Few people realize the amount of time and energy a school board must contribute to plan for and supervise the construction of a new school.) I appreciate also the patience of the townspeople and the loyalty of the teachers through these long months of construction and readjustment.

Respectfully submitted,

J. Harold Moody

Superintendent of Schools
